Bergemann Schönherr & Partner

Introduction

Entering a new market means more than just understanding tax law – it means understanding how things really work. At Bergemann Schönherr & Partner, we accompany Korean companies on their journey to Germany with one goal: to make them feel at home in a new business environment.

Our team of tax advisors, auditors, and consultants provides clarity and reliability – from the very first step of your market entry. We help you navigate Germany's complex tax and accounting landscape while keeping an eye on your strategic growth.

Typical challenges we support you with include:

- choosing the optimal legal form and group structure,
- managing your German tax registration and ongoing filing obligations,
- setting up payroll and accounting processes that meet German standards,
- transfer pricing and cross-border tax structuring,
- optimizing communication between your Korean headquarters and your German subsidiaries.

Trust and precision are at the heart of what we do – especially when guiding international businesses in Germany.

Beyond tax advice, we build bridges and create understanding.

Our close connection to the Honorary Consulate of the Republic of Korea in Bavaria through our partner Thomas Elster makes us uniquely positioned to support Korean companies in navigating the German market with confidence and clarity.

And because business success in Germany also depends on solid legal foundations, our in-house legal team works seamlessly alongside us – ensuring that your corporate, contractual, and regulatory matters are handled with the same care and expertise.
